LET THEM KNOW WE MATTER

Good afternoon!

Hope you are all staying warm and dry. We will be having a beautiful spring!

This is to advise you that regardless of the weather, our meeting this Thursday, March 15th at 6 PM at the Pollock Pines-Camino Community Center will go on! We are so blessed and honored that our federal, state, and county legislators think enough of us to bring themselves all the way up here to meet personally with us; we hope they will receive a warm, if not dry, welcome! They understand that it's not easy for some of us to go down the hill to other communities' worships, and they also understand that our community is a unique, rural, forested area with unique small

business considerations. They understand that we need them to hear our own special concerns...and they are willing to make that happen for us.

All levels of lawmakers will be represented and all levels of the ADA compliance issues will be addressed at one time so that we can understand the differences between them. Further, we need to know what to do (and what not to do) to protect ourselves, at the same time as trying to comply with the law. We have two expected outcomes from the meeting:

1. **Education** – What do each of the levels of government legislate regarding ADA compliance?
2. **Support** for all of our lawmakers so that they can feel stronger in modifying the existing law, i.e. Beth Gaines. We want to let her and all the others know we are here, and we expect them to correct this incomplete law; we will do what we need to do to be heard.

Let me say it again, this Pollock Pines meeting was added to the schedule of Town Hall meetings on this topic. They know we matter. Let them know we care.

Hoping to see you there, refreshments will be served. Come early because we will start right on time! Let's let the people we have elected know how much we appreciate their "up close and personal" attention to us!
